PROFESSIONAL EXPERIENCE

Full-Stack Developer (TypeScript, React & PHP)

HRanker Educational

Nov 2025 – Present Gurugram, India

- Build student and admin interfaces for an **EdTech platform** with **TypeScript and React**, covering **5 core modules**: courses, batches, live classes, test series, and result dashboards.
- Design and develop **REST APIs** serving **2 clients** (React web app and mobile app) for authentication, batch management, test scheduling, and results.
- Maintain and extend the existing **Laravel (PHP)** platform, ensuring stable releases while migrating modules to React.
- Delivered **live class** scheduling and auto-evaluated tests with real-time results, plus **3-channel notifications** (SMS, email, push) via Twilio, Laravel Mail, and Firebase.
- Optimized queries and API response times on high-traffic modules, improving page load speed and reducing server load.

PHP Developer – Team Lead

Intileo Software

Dec 2024 – Nov 2025 Gurugram, India

- Led a **5-member team** and delivered **5 production systems** (Hospital Management, Courier & Logistics, University CRM, Digital Contract, Garage Management) in Laravel, Livewire, and Filament; ran code reviews and sprint planning.
- Architected **scalable REST APIs** and modular MVC backends; cut database query time by **30%** through indexing, query tuning, and schema restructuring.
- Integrated **4 payment gateways** (Razorpay, Paytm, BillDesk, CCAvenue) with AES encryption to protect PII and financial data.
- Configured **Cloudflare DNS, CDN, and SSL/TLS** across multiple production deployments on Hostinger and cPanel.

Software Engineer – PHP

WoCo HRMS

Feb 2021 – Dec 2024 Gurugram, India

- Built a full-featured **HRMS and Payroll system** in Laravel, Core PHP, and MySQL supporting **1,000+ employee records** with automated payroll processing.
- Developed **REST APIs** for **2 mobile platforms** (Android and iOS) powering real-time attendance, leave management, and employee data sync.
- Implemented **GPS geolocation validation**, shift scheduling, and biometric sync; reduced database response time by **30%** via query optimization.
- Authored **reusable PHP service classes and helper libraries**, reducing duplication and accelerating feature delivery.

PROJECTS

EdTech Institute Management (LMS + CMS)

2025 – Present HRanker Educational

Garage & Workshop Management System

2025 Intileo Software

Hospital Management System (HMS)

2024 – 2025 Intileo Software

University CRM & Admissions System

2024 – 2025 Intileo Software

Digital Contract & E-Signature System

2024 – 2025 Intileo Software

Courier & Logistics Management System

2024 – 2025 Intileo Software

Payroll & Compliance Management System

2021 – 2024 WoCo HRMS

HRMS & Smart Attendance Platform

2021 – 2023 WoCo HRMS

TECHNICAL SKILLS

TypeScript React JavaScript PHP

Laravel Livewire Filament

CodeIgniter 3/4 Yii2

MySQL PostgreSQL MongoDB

REST APIs MVC OOP SaaS

HTML5 CSS3

TOOLS & DEVOPS

Git GitHub GitLab Docker

Composer Postman AWS EC2

DigitalOcean cPanel Cloudflare

EDTECH STACK

Live Class Scheduling Video Streaming

OTP Verification Auto Test Evaluation

Result Analytics Razorpay PhonePe

BillDesk Automated Reminders

OCR CCAvenue Queue Jobs
